

*Since our founding in 1969, we have striven to create products with care.
After the earthquake, our scale shrank, but we believe that it is Shoyo's mission to restart and continue our business with the support of many people and companies.
Our company operates on a made-to-order production system and does not hold inventory, but we work closely with our customers under precise production management, and have
earned their trust in our delivery times, quality, and prices.
It is difficult to keep up with the speed of change in the times, but we never give up, and instead focus on introducing equipment and developing our personnel, aiming to create
products that are useful to our customers.
We are grateful to all the people and companies that support Shoyo, and we will continue to work hard every day to create products with care, which is also the belief of our founder.*
